ABOUT ME

Forever curious. Always learning. Full Stack Developer with a passion for Front End Development.

Over the past six years, I've partnered with non-profit organizations, medical associations, and small businesses to design and develop websites. I recently completed a Full Stack Development course to enhance my skillset.

EXPERIENCE

Website Designer & Developer
Break Through Website / 2016 – Present

Launched company in 2016. Design and develop WordPress websites that streamline clients' process, provides them with functionality that enhances their operations, and is useful and helpful to their users. Some of the functionality I've implemented on sites include: Memberships, Subscriptions, Directory, eCommerce, Events and Ticketing.

PROJECTS

MyTeam Stats
Stats tracker for sports teams. Users can view upcoming games, scores, team and player information, & statistics.

React | Javascript | HTML | CSS | Express.js | MongoDB | GraphQL/Apollo

Dogeared
A personal digital library for readers. They can attach notes and favorite quotes to the books in their library.

Javascript | HTML | CSS | Express.js | Handlebars

Tech Talk
A CMS-style blog site. Users can publish articles, view posts & add comments.

Javascript | HTML | CSS | Express.js | Handlebars
